PRESS RELEASE

Integrated Digital Systems announces the opening of a new facility, IDS Virtual Depot, Inc. in Jamestown, New York.

Manassas, October 26, 2007: Integrated Digital Systems today announced it has finalized a Joint Venture Agreement with Virtual Depot Inc. establishing a new state of the art, 18,000 sq. ft. Sales Office, Data Center and Production Scanning facility along with a 250,000 sq.ft. document and media storage facility. The new facility is scheduled to be fully operational by January, 2008. The facility is currently undergoing renovation and construction. The new Data Center will be managed and operated utilizing the latest IDS and Microsoft products. The new facility will provide state of the art document hosting, ASP, and disaster recovery services. The new scanning facility is equipped with new scanning technology utilizing IDS, Fujitsu and Kofax products. To assist those customers in highly paper driven environment, especially healthcare and local government the new Document and Media Storage Facility will provide scan on demand services for stored paper files including large format documents and house hundreds of millions of customer mission critical documents available on demand. IDS Virtual Depot Inc. will service the regions of Western PA., Western New York, Eastern Ohio and parts of West Virginia. IDS will provide remote back-up to the Jamestown Facility and Jamestown will provide remote back-up services to IDS and its Mid Atlantic customer base.

Headquartered in Manassas, Virginia since 1995, Integrated Digital Systems is one of the nation's leading document management, workflow, and secure portal solutions developers and software manufacturers specializing in document management, BPM and web based electronic document management systems for government, healthcare and all levels of education as well as secure HIPAA and Privacy Act compliant document conversion services. IDS products are sold worldwide through 62 resellers and premiere partners.
