

Product Name

DCKF v2.0 (Document Centre to Kofax Module)

Product Screenshot

Brief Description

The Document Centre to Kofax Module™ (DCKF) provides a quick, efficient and cost-effective solution for automatically submitting scanned documents produced by a Scan-enabled Xerox Document Centre or WorkCentre to the Kofax Ascent Capture latest production capture software for processing. Processes include zonal OCR, barcode reading, forms capture, ICR, IMR and more.

Full Description

The DCKF Module will automatically submit scanned documents from as many as 12 Xerox Document Centres or WorkCentres on a network to output directories and can easily scale to unlimited capacity with additional licensing. The DCKF Module™ can also process Group III and Group IV TIFF documents produced by Captaris RightFax™ production fax solutions. DCKF Module submits scanned documents to Kofax via XML and can be run as a service to provide truly hands off operations as well as provides event logging and production logging. Custom versions of the Document Centre to Kofax Module are also available.
